Title Song : Turn Your Eyes Upon Jesus Artist : Hymn Key : D

```
Verse 1:
  D                A7 D   G   Em
O soul, are you weary and troubled?
   D            A7           D
No light in the darkness you see?
        D           B7          E  A
There’s light for a look at the Savior,
    D          A       E7  A     A7
And life more abundant and free!

Chorus:
D         A7        Bm D7
Turn your eyes upon Jesus,
     G           Em        A     A7
Look full in His wonderful face,
        D         F#m             Bm     D  G
And the things of earth will grow strangely dim,
       D            A7        D     G  D
In the light of His glory and grace.

Verse 2:
  D                        A7  D     G  Em
Through death into life everlasting
      D                      A7              D
He passed, and we follow Him there;
        D           B7          E  A
O'er us sin no more hath dominion-
    D          A       E7  A     A7
For more than conqu'rors we are!

Verse 3:
  D                        A7  D     G  Em
His Word shall not fail you-He promised;
      D                      A7              D
Believe Him, and all will be well:
        D           B7          E  A
Then go to a world that is dying,
    D          A       E7  A     A7
His perfect salvation to tell
