[VERSE 1]
     C                   F
From death to life, from darkness to a shine
     C/G                       F
From fear to a peace I can’t explain
     C                         F
From doubts to a hope, holding on and letting go
           C/E               F
Of all the empty promises of shame
Am   G     F
This is my song

[CHORUS 1]
C                F
  I was one way,   but now I am different
Am                              F
  There was a clear change in a   Holy collision
G                               F
Who I was and who I’ll forever be
                  C
And He was the in between

[VERSE 2]
     C                              F
From orphan to Your child, from a stone to running wild
       C/G                               F
From a seed in the ground, to breaking out
       C                 F
From a mess to a mess, a blessing to a blessing
  C/E                           F
A sea of failures bearing testimony
Am   G     F
This is my song
