[Verse 1]

D
Third grade, I drew my dreams
     Bm
On a blank page, my own silver screen
        G
Painted sun, never rain
And love without pain
D
It's funny, that life I designed
      Bm
Never played out like I had in mind
         G
Had some highs hit the ground
Some ups that went down
    A
But one thing that I've figured out

[Chorus]
    D
Joy comes
A     G
Tears fall
    D                          A     G
I'm learning there is beauty in it all
                  Bm
It's not hard to find it
         A       G
You just have to look
 A
Oh, God is good

[Verse 2]

D
I've said hellos and goodbyes
         Bm
And I've held my friends while they've cried
       G
Tasted bitter and sweet
Those moments between
    A
Oh, He's had his hand on everything

[Chorus]

    D
Joy comes
A   G
Tears fall
    D   A   G
I'm learning there is beauty in it all
                  Bm
It's not hard to find it
         A   G
You just have to look
 A
Oh, God is good

G D A Bm

[Bridge]
G   D
We're all young, then we're old
                           Bm
Kids have kids of their own
                          F#m
And the days just keep moving, moving
G   D
If there's one thing I know
                 Bm
True wherever I go
               F#m   G
He is with me forever, through it all

[Chorus]

```
    D
Joy comes
A     G
Tears fall
    D                               G
I'm learning there is beauty in it all

    D
Joy comes
A     G
Tears fall
    D                          A     G

                Bm
It's not hard to find it
