[Intro]
G G G G C G G G G C

[Verse 1]
G
Head down as I punch this clock
    G
The hours roll, they never stop
    C                          G
And I can't ever seem to get ahead
G
Alway's tryin' to do what's right
G
Straight and narrow, it's gettin' tight
C                                  G
Don't know how much longer I can stand

[Chorus 1]
        D
And I'm wonderin'
          C
Yeah, I'm wonderin'
                     G
Where's my promised land?

[Outro]
G G G G C G G G G C

[Verse 2]
G
Out here on this desert road
     G
It's hot as fire but I've grown cold
C                                  G
Circlin' like a plane that never lands
    G
And even though the questions change
    G
The answers always stay the same
C                           G
Maybe someday I will understand
```

[Chorus 2]
```
       D
So I'm wonderin'
       C
Got me wonderin'
                    G
Wh?re's my promised land?
          D
Yeah, I'm wond?rin'
           C
Still, I'm wonderin'
                    G
Where's my promised land?
```

[Outro]
G G G G C G G G G C

[Bridge]
```
           D
Well, I've run this Earth for many years
   C
If there's one thing I know
        D
There's nowhere on this side o' Heaven
      C
Where streets are made o' gold
     D
I've long laid tell my grand illusions
Em                                  D
Lookin' toward the day that I'll be home
```

[Verse 3]
```
G
I won't give up on this race
G
Broken but I still have faith
     C                              G
That this old life is all part of a plan
    G
And I can feel it in my soul
    G
One day, I'll stand before the throne
     C                                    G
```
