First Love Chord

By : Hillsong Young & Free
Key : Ab

(adsbygoogle = window.adsbygoogle || []).push({});

Intro :
G

Verse 1 :

```
               G
This is all I want
                        Cadd9
That the love I have for You
                      Dsus
Doesn't fade along with youth
                     Em7
Can You help with that
                    G
The reason that I ask
                         Cadd9
I've seen far too many friends
                     Dsus
Walk away and not come back
                    Em7
I want more than that
```

Pre-Chorus 1:

```
               Am7
I won't wash away
                  G/B
Like branches in rain
               Cadd9           D
I'd rather be kindling in the light
```

Chorus 1 :

```
           G
Set me on fire like I've never known
           Bm
I want to love You more as life goes on
              C
So all of my days I'll place
   Am                 G    G
My first love first again

Verse 2 :

                G
This is all I pray
                 Cadd9
Over everything I ask
                          Dsus
That my friends one day come back
                     Em7
Can You help with that?
                G
God I know You can
                              Cadd9
'Cause the fire won't mean a thing
                      Dsus
If it ends right here with me
                      Em7
You want more than that

Pre-Chorus 2 :

                Am7
The river runs fast
                      G/B
But You wait at the banks
                   Cadd9              D
And pull us like driftwood from the wild

Chorus 2 :

           G
Set me on fire like I've never known
           Bm
```

```
I want to love You more as life goes on
              C
So all of my days I'll place
   Am                 G    D
My first love first again
             G
Once I was drifting but You called me home
                 Bm
So I'll give my life for the ones still lost
                 C
And I'll see my friends reclaim
      Am                  G    D
Their first love first again

Interlude :

C    Am    G    Bm
Ooh, ooh,  oooooh
C    Am    G    G
Ooh, ooh,  oooooh
C    Am    G    Dsus
Ooh, ooh,  oooooh

Chorus 2 [........]

Tag :

                 C
You'll see this world return
         Am                    G    Bm
And Your first love love You first

Ending :
C    Am    G
```
