G     Am   Em
```

**Verse 1 :**

```
                 G
This is my worship
Am                  Em
This is my offering
C                 G
In every moment
Am                   Em
I withhold nothing
    C                       G
I'm learning to trust You
       Am                   Em
Even when I can't see it
    C                   G
And even in suffering
  Am                    Em
I have to believe it
```

**Chorus :**

```
C                              G
If You say "it's wrong", then I'll say "no"
Am                             Em
If You say "release", I'm letting go
C                            G
If You're in it with me, I'll begin
    Am                Em                          C
And when You say to jump, I'm diving in
                         G
If You say "be still", then I will wait
Am                           C
If You say to trust, I will obey

                          G

But once I could grasp it
C                         G
You took me further
          Am                Em
Further than I was asking
    C                   G
And simply to see You
Am                      C
It's worth it all
   D                   Em
My life is an altar
    G/B                 C
Let Your fire fall
```
