Chords Letting Go By Bethel Music

By : Bethel Music Feat Steffany Gretzinger Key : E

```
[VERSE 1]
G#m                        B
 You've brought me to the end of myself
G#m                      B
 And this has been the longest road
G#m            B
 Just when my hallelujah was tired
 E              F#
 You gave me a new song

[CHORUS]
             E  F#          G#m  F#
I'm letting go, I'm letting go
             E  F#          G#m
I'm letting go, falling into You

[VERSE 2]
G#m                B
 I confess I still get scared sometimes
G#m                      B
 But perfect love comes rushing in
G#m                                B
 And all the lies that screamed inside go silent
 E              F#
 The moment you begin

[BRIDGE]
E          F#
You remind me of things forgotten
G#m          F#           B/D#             E
  You unwind me until I'm totally undone
                        F#
With Your arms around me
                           G#m
Fear was no match for Your love
                   B
Now You've won me

[OUTRO]
E                    F#
```

If I lived a thousand lifetimes
                                G#m
And wrote a song for every day
                                        F#
Still there would be no way to say
           B/D#   E
How You have loved me
