```
[Intro]
Bm   G   Em   A
Bm   G   Em   A
D    G   Em   A

[Verse]
Bm                            A  D
Things were all good yesterday
                                    A  G
And then the devil took your memory
                             D      G
And if you fell to your death today,
                                       Bm
I hope that heaven is your resting place
Bm                                        A  D
I heard the doctors put your chest in pain
                                     A G
then that could've been the medicine
                                    A
And now you're lying in the bed again
A
Either way I'll cry with the rest of them

[Pre-Chorus]
G      D         Bm
And my father told me son
D
It's not his fault he doesn't know your face
G         D            Bm
And you're not the only one
            G       D            A
Although my grandma used to say, he used to sing

[Chorus]
Bm                    G
Darling hold me in arms the way you did last night
Em            A
And your life inside, a little while with you more
Bm                    G
I could look into your eyes until the sun comes up
Em                    A
And we're wrapped in light, in life and love

Bm                        G
Put your open lips on mine, slowly let them shut
Em                    A
for they're designed to be together
Bm                        G
With your body next to mine our hearts will beat as one
Em              A
And we'll set alight, we're afire love

[Instrumental]
 D   Em    G   A

[Verse]
Bm                              A  D
Things were all good yesterday
                                          A  G
And then the devil took your breath away
                               D G
And now we're left here in pain
                                           Bm
Black suit black tie standing in the rain
Bm                              A D
And now my family is one again
                                                  A G
Stapled together with the strangers and a friend
                                                   A
Came to my mind I should paint it with a pen
A
Six years old I remember when

[Pre-Chorus]
G      D          Bm
And my father told me son
D
It's not his fault he doesn't know your face
G          D             Bm
And you're not the only one
             G       D             A
Although my grandma used to say, he used to sing

My father, and all of my family

rise from their seats to sing hallelujah
