```
C#m                G#m                A
Right here in Your presence is where I belong
C#m             G#m                A
This old broken heart has finally found a home
And I'll never be alone…

Chorus :
           A                E/G#
I need Youmore, I need You more (repeat)

'Cause I never want to go back to my old life
