Am
 Lord, have mercy on my soul
Dm
 For I have walked the sinful road
Am                      E7
 That I'm down on my knees
                       Am
Lord have mercy on me, please

Am
Jesus, I must confess
Dm
That in all my loneliness
       Am
I've forsaken and I've sinned
       E7                    Am
Leaving fragments of a man so broken

                            Am
I could tell you what I've done
                            Dm
Or should I tell you where I went wrong?
                               Am
Well the more that I start to play
            E7
My deceitful, evil ways
                           Am
Keep on growing stronger by the day

                         Am
Oh Lord, have mercy on my soul
                      Dm
For I have walked a sinful road
                               Am
So I'm gonna get down on my knees
                                  E7
Beg forgiveness to help set me free
                       Am
Lord have mercy on me, please

                    Am
