[Verse 1]

C                          G  
I've tasted and seen  
  G                          Am  
Yet questioned it all  
                          F  
Still You remain  
C                          G  
Chased empty dreams  
  G                          Am  
Ran from Your call  
                          F  
And turned back again

[Pre-Chorus]

  G                          Am  
There's no other treasure on earth  
                          F                          G  
That amounts to Your love, and I know

[Chorus]

                          C                          G  
Even if everything I know  
                          Am                          F  
Is taken away, I won't lose hope  
                          C                          G  
I'll cling to the One who won't let go

Just give me Jesus
