Title Song : Savage Love Singer : BTS key : Cm

Capo fret 3

```
Am                                        F
Savage love, did somebody, did somebody break your heart?

                                         C
Lookin' like an angel, but you're savage love

                                       G
When you kiss me, I know you don't give two fucks

But I still want that
  Am
If I woke up without ya, I don't know what I would do
F
Thought I could be single forever 'til I met you
C
Usually don't be fallin', be fallin', fallin' fast
G
You got a way of keepin' me comin' back-to-back
Am
I just found out, the only reason that you lovin' me
F
Was to get back at your ex lover, but before you leave
C
Usually I would never, would never even care
G
Baby, I know she creepin', I feel it in the air

Am                    F
Every night and every day (every day)
C                   G       G7
I try to make you stay, but you're

   Am                                        F
Savage love, did somebody, did somebody break your heart?

                                         C
Lookin' like an angel, but you're savage love

                                       G
When you kiss me, I know you don't give two fucks
