Title Song : Catch Me If You Can Singer : Girls' Generation key : Bm

```
Bm
Catch me if you can
         D
Catch me if you can
               A
I just got my head down
           Bm                  D
And I'm a little bit scared tonight
           Bm             A
I need to run just far enough
          Bm                  D
So I can smile again, smile again
          A
So I can smile again

Bm
Take me by the hand
        D
Take me by the hand
                        A
But don't you get too close now
             Bm                   D
Cause I'm a little bit scared of life
           Bm              A
I need someone to try and bring
            Bm             D
Me back to innocence, innocence
             A
Me back to innocence
