[Intro]
C F Am G

[Verse 1]
               C
Sometimes I'm under starlit sky
          F
But I'm feeling more like dirt
     Am
How do I forget so fast
          G
Who you are, and what that's worth
                  C
'Cause there's an evidence of you
         F
In every corner of this life
        Am
So why do I still try to prove
        G
That I don't deserve your time

[Chorus]
              C   G
'Cause I am yours
     F                  C
And you will always be mine
               C              G
It seems like madness, I'm invited
           F           Am
To the table by your side
              C   G
'Cause I am yours
      F                  C
And you will always be mine
       Am              G
I'm a man whose one ambition
         F            Am
Is to dance with my divine
            C     G
'Cause I am yours
F          Am       F        G
```

```
And you are, you are, you are
         C
You are mine

[Verse 2]
               C
Sometimes I'm walking on a ledge
         F
And I am afraid to just look down
         Am
It's like I think I'm control
          G
I'm giving gravity to doubt
        C
But you love me where I am
           F
Enough for you to not look back
             Am
And it's the only kind of love
            G
That I have ever felt like that

[Chorus]
              C   G
'Cause I am yours
     F                  C
And you will always be mine
               C              G
It seems like madness, I'm invited
           F           Am
To the table by your side
              C   G
'Cause I am yours
      F                 C
And you will always be mine
       Am              G
I'm a man whose one ambition
         F            Am
Is to dance with my divine
            C     G
'Cause I am yours
F          Am       F        G
And you are, you are, you are
         C
You are mine

OH

[Bridge]
       C
We say no, don't let the rain come
           F
'Cause we got our reservations
        Am
But the water that we need
   G
Is bound to overtake us
     C
If I had to write a story
       F
Of the greatest love in time
        Am
I would have to sing of you
             G
How I'm this branch and you're the vine
         C                      F
And the romance that we have, oh, it's easy by design
       G                                  C
I was fortunate to find you, I'm still blown away you're mine

[Chorus]
              C   G
'Cause I am yours
     F                  C
And you will always be mine
               C              G
It seems like madness, I'm invited
           F           Am
To the table by your side
              C   G
'Cause I am yours
      F                  C
And you will always be mine
       Am              G
I'm a man whose one ambition
         F            Am
Is to dance with my divine
            C     G
'Cause I am yours
F          Am       F        G
```

And you are, you are, you are
         C
You are mine
