Know You Will Chords & Lyrics - Hillsong United

Title Song : Know You Will Singer : Hillsong United key : E Tuning : standart Capo : No Capo - click E

```
Intro:
C#m  A  E

Verse 1:

         C#m
When the road runs dead
              A     E
You can see a way I don't
       C#m
And it makes no sense
                          A        E
But You say that's what faith is for
C#m                            A
When I see a flood You see a promise
E
When I see a grave You see a door
C#m
And when I'm at my end
                   A       E
You see where the future starts

                      C#m
I don't know how You make a way
      A        E
But I know You will
                      C#m
I don't know how You make a way
      A        E
But I know You will
                            C#m
You've been good on every promise

From Eden to Zion
E                   A
Through every dead end
```

CHORDMUSIC.INFO

```
                E
And out of that grave
                      C#m
I don't know how You make a way
      A        E
But I know You will

Verse 2:

C#m
When the world's on fire
                          A      E
It's not like You don't have a plan
             C#m
And when the earth gives way
                   A            E
On this Rock Your Church will stand
C#m                         A
Nothing has ever once surprised You
E
Nothing has ever made You flinch
    C#m
And when it all shakes out
                          A       E
The gates of hell don't stand a chance

                      C#m
I don't know how You make a way
      A        E
But I know You will
                      C#m
I don't know how You make a way
      A        E
But I know You will
                            C#m
You've been good on every promise

From Eden to Zion
E                  A
```

CHORDMUSIC.INFO

Through every dead end
                E
And out of that grave
                      C#m
I don't know how You make a way
      A   E
But I know You will

Bridge:

A   B
You pulled my heart from Egypt
C#m   B
You carved a road through sea
E
From all our chains

To endless praise
G#m
The story ends in You

A   B
And when we cross that Jordan
C#m   B
Look back at where we've been
E
From all our chains

To endless praise
G#m7
The story ends in You

                      C#m
I don't know how You make a way
      A   E
But I know You will
                      C#m
I don't know how You make a way

```
      A        E
But I know You will
                            C#m
You've been good on every promise

From Eden to Zion
E                   A
Through every dead end
                 E
And out of that grave
                      C#m
I don't know how You make a way
      A        E
But I know You will
```
