[Intro]
E A C#m A

[Verse 1]
                      E
I remember when I was young
         A                      E     E/G#
And your voice shouting loud my name
           A
Since that moment
                           C#m    E
Never heard it quite that way
             A
Now that I’m older
                  E       A
Could you say it again

[Verse 2]
                      E
I remember when I was afraid
       A                     E   E/G#
Oh the hand I felt lead the way
        A                              C#m   E
For the first time in my life I felt safe
             A
Now that I’m older
                   E     A
Would you lead me again

[Chorus]
         A       E          C#m  B
When the storm's out on the o-   cean
        A       E               C#m  B
And the violent wind get’s to blow-  ing
           A     E
Oh take me back, back
C#m         B
All the way back

             A
Now that I’m older

All the way back
           A          B           E
Oh take me back to my first love

[Bridge]
        C#m           A
You are real to me
                        E      B
I’ve known it from the start
           C#m              A
There’s no space between
                    E       B
The Heaven’s and my heart

                        A
When it was all simple,

And loving was easy
                        A
When it was all simple,
                        E
And trusting was easy
